NONDISCRIMINATION POLICY

Ascension Theological College admits students of any race, color, national or ethnic origin, sex, or sexual orientation to all the rights, privileges, programs, and activities generally accorded or made available to students at the school.

We do not discriminate on the basis of race, color, national or ethnic origin, sex, or sexual orientation, in the administration of our educational policies; scholarship and loan programs; and athletic and other school-administered programs.

An educational program ... must not be only a school, but a movement in spirit that goes beyond the reason of the academy. It must nurture the roots of life with balanced rations of mysticism. Only mysticism sustains the vitality and reality of faith. Education nowadays is often an attempt to serve the status quo. It shall not be so with us. We will lead you into brighter horizons and out into greater fulfillment. We will share many treasures with you that will open new vistas into a better and finer life.

– Archbishop Herman Adrian Spruit, 1959

INTRODUCTION

Ascension Theological College is a non-accredited, highly decentralized, program of study that offers structured guidance and mentorship to those willing to undergo rigorous study and practice that may lead to ordained or non-ordained ministry within the context of a “free” Catholic spiritual renewal movement.

We accept applications from those who wish to study for ordination, to earn a degree, or both. We offer the opportunity to earn a Bachelor of Divinity degree to those who do not already have a baccalaureate degree from an accredited institution; the Master of Divinity to those who do; the Master of Pastoral Counseling for qualified candidates who feel called to do counseling within a spiritual context; the Master of Spirituality for those interested in personal enrichment or non-ordained creative ministry; the Master of Theological Studies for those interested in ordained non-sacramental ministry; and the Doctor of Ministry to select students who have a master’s degree and extensive ministry experience, see below, under “Doctoral Studies.” The course of studies is both structured and individualized. The educational expectations are comparable to those of other seminaries though the curriculum reflects our unique renewal philosophy and style of learning.

DECENTRALIZATION AND INDIVIDUALIZATION

A hallmark of our approach is that we recognize there are many legitimate ways to learn and that our candidates may come from almost anywhere in the world, with diverse needs, resources, and local study opportunities. These may include but need not be limited to the following:

- Distance learning courses through our program
- Ascension workshops, “intensive” courses, and retreats held at the Hermitage or other locations
- Graduate studies at accredited institutions of higher learning
- Distance learning courses taken at accredited institutions

- Independent study courses done with an approved instructor according to the provisions of an independent study contract
- Individualized readings courses (by theme or author) done under the supervision of an approved reader, to include assignments and the submission of a final Integration Paper
- Hands-on projects
- Practica, CPE, or other supervised applied learning experiences
- Attendance at specialized workshops by approved teachers or organizations

FORMATION DIRECTOR

Because the program requirements are complex, and the ways of fulfilling the stated outcomes are varied, the Program assigns a Formation Director to supervise the candidate's studies. Formation Directors are renewal oriented clergy and scholars whose background and training gives them the needed competence for this work.

FORMATION COMMITTEES

In addition to the candidate's Formation Director, each candidate recruits at least one other mentor to serve on the candidate's Formation Committee. Collectively, the candidate, Formation Director, and other committee members shall constitute the candidate's Formation Committee, which works closely with the candidate's bishop.

ROLE. Its role is to offer guidance, instruction, help, and support. The members of committees are usually clergy, educators, spiritual directors, counselors or individuals poised to support and help the student. Thus, the candidate's progress and journey through the program is assisted by the committee, offering encouragement, guidance, support, and feedback.

COMMITTEE CHAIRS. Formation Directors shall serve as the Chairs of Formation Committees.

LEARNING COVENANT

The candidate and committee develop an overall Learning Covenant for the candidate's program. This will address all the required Program Outcomes as well as an outline of how the individual candidate will accomplish these outcomes. All mentors, including the Formation Director, must formally sign on to the student's comprehensive Learning Covenant. This written covenant shall

be regarded as a *sacred document*. It will guide the candidate's journey through the program, but can be re-negotiated as needed.

ANNUAL LEARNING CONTRACTS

Candidates will work with their committee to develop Annual Learning Contracts.

TIMING. Typically, these should be submitted in advance of the academic year.

CONTENTS. It is a detailed description of what the student will actually be studying, the methodologies, the learning formats (e.g., university course, seminary course, tutorial, directed reading, internet course, course on DVD, internship, practicum, workshop series, etc.), the forms of ongoing assessment, and details of what knowledge the student expects to acquire.

ASSESSMENT. The contract must specify how the learning will be supervised and evaluated, and what competencies the student is expected to demonstrate at the conclusion of the contract.

AMENDMENTS. These contracts may be amended in consultation with the Formation Committee, especially when unique learning opportunities arise.

ANNUAL PROGRESS REPORT. At the close of the year, the candidate's Formation Committee will review the candidate's progress and submit a brief report.

PROGRAM OUTCOMES

OVERVIEW. The required program outcomes provides an outline of the minimum values, knowledge, and skills needed for the informed practice of ordained or non-ordained ministry within the context of a free Catholic spiritual renewal. However, preparing to become a priest or minister capable of supporting others on the spiritual journey is more than mere learning *about* religion.

OUTCOMES. Candidates must become grounded in spiritual practice; fluent in tradition and scripture; competent in liturgy (priesthood ordination track); able to craft innovative worship experiences; and be fully "present" to the pastoral needs of others.

UNIQUE CHALLENGES. Mastering the academic component of the curriculum is itself a prodigious undertaking. Although the process of (re-)learning the basics of tradition may feel like an obstacle, this intensive study grounds our creativity and helps establish balance. Inflexible adherence to tradition fosters rigidity; neglect of it, to "flakiness" and a superficial spirituality. It is the work of the

Formation Committee to help the candidate craft and refine an overall program that is both personally meaningful and that integrates the essentials of ministry with the organic charism of a free Catholic renewal.

The members of committees are usually clergy, educators, spiritual directors, counselors or individuals poised to support and help the student. Thus, the candidate's progress and journey through the program and project/dissertation is assisted by the committee, offering encouragement, guidance, support, and feedback. Ultimately, the committee must approve the culminating project and written dissertation.

DOCTORAL OUTCOMES

We expect doctoral graduates to be leaders in spiritual practice; theological and ministerial knowledge; creative liturgy; and pastoral care. *We consider 1 Unit to be equivalent to one 3-semester-credit course, one 5-quarter-credit course, or about fifty hours of direct instruction, in addition to outside reading and completion of a written paper.*

The candidate and committee develop an overall Learning Covenant for the candidate's program. This will address all the required Program Outcomes as well as an outline of how the individual candidate will accomplish these outcomes. All Doctoral Committee members, including the Committee Chair, must formally sign on to the student's comprehensive Learning Covenant. This written covenant shall be regarded as a *sacred document*. It will guide the candidate's journey through the program, but can be re-negotiated as needed.

Candidates will work with their committee to develop Annual Learning Contracts.

TIMING. Typically, these should be submitted in advance of the academic year.
